

**THE BOSTON HOUSE:  
HOPE AND HEALING FOR  
CHILDREN WITH CANCER**  
REPORT OF GIVING 2022

## DEAR FRIENDS,

We hope you are staying safe and well during these challenging times. It is hard to believe that the pandemic is still with us

and continues to impact how we navigate within our own worlds. We remain grateful for your thoughtful and ongoing support of The House and our families.

The phrase “It takes a village to raise a child” originates from an African proverb and conveys the message that it takes many people (“the village”) to provide a safe, healthy environment for children. We believe this now more than ever as we continue to be so touched and inspired by the many ways, both large and small, that members of our community demonstrate their care of the children with cancer and their parents staying with us. Whether it is a delivery of holiday gifts and toys; refurbishment of the play yard; a donation of cozy blankets, gift cards and gas cards; kitchen supplies from our Amazon wish list; or the many generous donations to support our current use needs, our village has surrounded The House with its love and generosity.

Over the past 37 years serving as the co-executive directors of The House we have witnessed many miracles and acts of kindness. We have had a firsthand view of the goodness of people and that continues to be heartwarming and inspiring. While the pandemic continues to create numerous challenges, we remain committed to keeping our families as safe as possible. And we thank you all for the countless ways you have demonstrated your concern and dedication to The House and to our staff. These small and large acts of kindness and generosity – one human being to another – are what our House is all about.

With our deepest gratitude,

Peg Enright and Andrew Richards  
Co-Executive Directors  
*The Boston House: Hope and Healing  
for Children with Cancer*

## FAMILIES STAYED AT THE BOSTON HOUSE IN 2022.

### MISSION

Since 1979, The Boston House (TBH) has served as a home away from home for children with cancer and other life-threatening hematological illnesses and their families. As an essential part of their overall care, The House provides its guests with no-cost and convenient accommodations in a safe, warm, and comfortable home-like setting. Here, children, families, and caregivers find comfort and support among staff, volunteers, and other families facing the life-changing realities of childhood cancer.

**VOLUNTEERS**

While The Boston House volunteers continued to help from afar since we were still unable to welcome volunteers back into The House in 2022, we know how blessed we are to have such a loyal and dedicated group helping The House and our families in so many ways. The Boston House welcomed new members to the Board of Directors in 2022, and we had runners and walkers participate in the ASICS Falmouth Road Race; cyclists ride in the Rodman Ride for Kids; golfers and guests join us for a sunny day of golf in October; shoppers join us at J. McLaughlin; volunteers donate gifts, wrap presents, design the appeals, oversee reupholstery of window seats in the dining room and in the living room, take care of the house plants, decorate The House for the holidays, provide coverage for an occasional emergency or weekend shift, and so much more. The Boston House would not be quite as welcoming to our families without your many kindnesses.

## THANK YOU 2022 SUPPORTERS

Honoring the dedicated parents and medical and business professionals who had the vision and determination to establish The Boston House in 1979, The Founders Society recognizes annual donors to The House for their leadership giving support.
