Since 1979, The Boston House: Hope and Healing for Children with Cancer has served as a home away from home for children with cancer and other life-threatening hematological diseases and their families. Providing a home for young patients being treated at Boston Children's Hospital and Dana-Farber Cancer Institute's Jimmy Fund Clinic, The House provides its guests with convenient accommodations in a safe and comfortable home-like setting. Here, children, families, and caregivers find comfort and support among staff, volunteers, and other families facing the life-changing realities of childhood cancer.
